

*Summer time and the living is easy...
or as they say, "When it's Hot, You're Hot!"*

Summer is a great time to enjoy the warm weather and cool down with the beverages and foods of the season.

Be it pool side, ocean, lake, mountain or countryside, stop and refresh! Many grocery stores, convenience stores, bakeries and delis have quick, already prepared foods, to feed your hunger and cool drinks to quench your thirst.

Smoothies, yogurt parfaits, fruit cups, iced drinks, iced coffee, iced tea, frozen fruit concoctions, fresh salads, ice cream cones and so much more to help you beat the heat! As we know, these options are offered in some great easy to use, easy to handle, environmentally conscious, recyclable, compostable or disposable

packages.

Keep our America Beautiful!

Take a look at some of the Packaging we represent!

**New England Only*
