

Save Money, Offer Foam!

- Foam cups and containers are the most cost effective product for your business.
- Foam cups and containers are dual use. Instead of keeping additional inventory, you can use foam for both hot and cold products to save space and increase efficiency.

Superior Foam Performance

- Foam cups and containers are unmatched insulators that keep hot drinks HOT and cold drinks COLD.
- Foam offers minimal condensation on cold drinks to virtually eliminate sweating.
- Foam cups and containers maintain beverage temperature and limit ice melting.

Versatility You Never Expected

- 100% recyclable where accepted.
- Lightweight and easy for employees to lift and move.
- No taste, no odor, no getting soggy.
- Consumers request and prefer foam!
